Technical Bulletin

Issue Date:

Model No: SLC310

Issue:

Model Name: Compact 3nm Solar Marine Lantern

Reason for New Product Options Certification Change Test Procedure

Bulletin: Product Improvement Instruction Revision Other:

Description of Change	Reason for Change	Effective Date
Battery size now increases from 7Ah to 12Ah.	<p>The SLC310 lantern will now be offered as standard with a 12V 12Ah SLA battery. This is the same SLA battery as found in the larger SLC420.</p> <p>This will allow the SLC310 to increase autonomy, run at higher duty cycles or be positioned at higher latitudes.</p> <p>Sealite can now fit the larger battery because we are using the same casting as found on the SLC420. Sealite has also altered the polycarbonate lens base to fit the larger casting.</p>	July 2009
