Description of Change	Reason for Change	Effective Date
New Multi-Input Solar Regulator	<p>2010 sees a number of enhancements to the compact solar marine lantern range.</p> <p>To improve the ease of serviceability and replacement of solar modules (in the unlikely event of damage) of Sealite's SLC310, SLC420 & Solar BargeSafe™ lanterns, Sealite has developed a new multi-input solar regulator which eliminates solder joints at the solar wire terminal.</p> <p>No soldering tools are required.</p> <p>The new regulator is mounted to a white plate which is then securely fixed within the lantern chassis/housing, ensuring a robust lantern construction.</p>	July 2010
